Other Agencies Notified by Submitter: National Response Center; PADEP

Allegation Contaminated water well. Gave case #992509. Water well is contaminated & hissing methane gas; last testing from Cabot showed well was at a 20% saturation. Well water is brown & smells like pond water. Children(daughter)cannot shower&have gotten rashes,hives,&eczema(frack rash) &dogs(pets)throw up after drinking water. Cabot currently provides drinking water but if the Moratorium b/w Cabot & PADEP is passed (as of 10/17/11) Cabot will no longer supply water & they can breach their contract with the residents of Dimock,PA. PADEP will not respond & have hung up on Sautners. Cabot also initially installed a filtration system in the basement of their home that failed & currently there is a PVC pipe that contains **
